SUMMARY

UI Designer with a strong focus on creating intuitive, visually engaging, and user-centered digital interfaces. Experienced in designing wireframes, high-fidelity UI, and interactive prototypes using Figma, with a solid understanding of front-end implementation using HTML, CSS, JavaScript, React.js, and Tailwind CSS. Able to collaborate effectively with developers and stakeholders by translating user needs and business requirements into feasible and consistent UI solutions. Passionate about usability, visual consistency, and continuous improvement to deliver seamless digital experiences.

EXPERIENCE

Web Developer Intern | Rumah Sakit Mentari

Sep 2025 - Dec 2025

- Led the UI/UX redesign of the official Rumah Sakit Mentari website, from wireframing and high-fidelity design in Figma to final implementation.
- Designed user-centered and accessible web interfaces, focusing on usability, visual consistency, and responsive layout.
- Implemented the UI into a responsive website using React.js, Next.js, and Tailwind CSS, ensuring smooth performance across devices. Delivered an end-to-end web solution by handling both front-end and basic back-end implementation.

Freelance UI/UX Design | Multimedia Access

Jun 2023 - May 2024

- Designed interactive and user-centered web UI/UX interfaces, including layout, navigation flow, and visual hierarchy.
- Created high-fidelity web UI designs and digital marketing visuals that increased visitor traffic to the internet package registration booth by 30%.
- Collaborated with clients to translate business requirements into effective web-based UI solutions.

PROJECTS

Bellara Fashion Website | <https://bellara.vercel.app>

Sep 2025 - Oct 2025

[React.js, Next.js, Tailwind CSS, Vercel]

- Designed the end-to-end UI/UX of the Bellara website, from layout structure and visual hierarchy to high-fidelity design, focusing on usability and visual consistency.
- Implemented the designed UI into a responsive live website using React.js, Next.js, and Tailwind CSS, including dark mode and intuitive navigation.
- Ensured UI consistency and responsiveness across devices by applying design-to-development handoff best practices.

SKILLS

- **UI / UX :** UI Design, Wireframing, Interactive Prototyping, User-Centered Design, Visual Hierarchy & Usability, Responsive Web Design
- **Front-End :** HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS
